DETAILED ACTION

Status of the Application

Receipt of Applicant's Response, Arguments/Remarks and the Declaration under 37 CFR §1.132, all filed 03/07/05 is acknowledged.

Claims 1-9 and 11-34 are pending.

Allowable Subject Matter

Claims 1-9 and 11-34 are allowed.

The following is an examiner's statement of reasons for allowance:

The prior art (Ramachandran *et al.* WO96/29983 & Cardin *et al.* US 5,104,645) does not disclose nor fairly suggest a shampoo composition having the following four claim requirements: (i) a bioavailability/coverage index value, of at least 1.25; (ii) a first conditioning index value, of less than or equal to about 1.0; (iii) a second conditioning index value, of at least about 1.5; and (iv) a minimal inhibitory concentration index value, of at least about 0.125. The instant invention demonstrates an improvement over prior art formulations due to the surprising and beneficial results that are attained through these index criteria. In particular, the instant invention achieves effective, improved anti-dandruff efficacy results over the art, since the use of the higher index value of the instant composition provides for increased bioavailability of the anti-dandruff agent, increased coverage of the anti-dandruff, or both, and thus, an improvement in anti-dandruff efficacy is obtained. The instant invention provides for increased bioavailability,

increased coverage and a superior combination of anti-dandruff efficacy and conditioning performance over prior art formulations through the instant combination of ingredients and index value requirements. Thus, the instant invention is rendered non-obvious and patentable over the cited art of record.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
